Dear Parent/Guardian:

Healthy children need medical and dental health supervision and should see a doctor at regular intervals. The health check-up should include physical examination and immunizations which are necessary to keep your child free of communicable disease.

This form requests health and individual needs information from you (Part I), which will be helpful to the Health Practitioner in evaluating your child, and medical information, lead screening/testing and proof of age-appropriate immunizations from your child's Health Practitioner (Part II). This information must be completed prior to your child being admitted to child care.

Maryland law requires you to submit proof of age-appropriate immunizations and that children less than six years of age have appropriate screening for lead poisoning. Children who reside (or have ever resided) in certain areas of the State (see page 4) designated as at-risk for childhood lead poisoning must receive one or more blood lead tests at 12 and 24 months of age.

CHILDREN WHO ARE REQUIRED TO RECEIVE LEAD TESTING

Under Maryland law, children who reside, or have ever resided, in any of the at-risk zip codes listed below must receive a blood lead test at 12 months and 24 months of age. Two tests are required if the 1st test was done prior to 24 months of age. **If a child is enrolled in child care during the period between the 1st and 2nd tests, his/her parents are required to provide evidence from their health care provider that the child received a second test after the 24 month well child visit. If the 1st test is done after 24 months of age, one test is required.** The child's health care provider should record the test dates on page 3 of this form and certify them by signing and stamping the signature section of the form. All forms should be kept on file at the facility with the child's health records.
